Career Objective

To build a long-term career in a progressive organization where I can continuously develop my professional expertise, take on increasing responsibilities, and grow into a leadership role while contributing significantly to the organization's vision and long-term success

S. No	Qualification	Institute	Board / University	Year	GPA or Percentage
1	B. Tech (CSE-AIML)	VNR VJIET	JNTUH	2023-27	8.37
2	Intermediate	Sri Chaitanya Junior College	TSBIE	2021-23	95.4%
3	10 th	Vignan Vidhyalaya	CBSE	2021	92.6

Technical Skills

Programming languages	C Programming, Python, Java, SQL, JavaScript , C++
Software tools	GitHub , MongoDB , Postman , Power BI , Hadoop
Operating Systems	MS macOS , Linux
Coding Profiles	Abhiramogirala(CodeChef), @abhiramogirala21(HackerRank)

Certifications:

- Udemy **Machine Learning** .
- IBM **Generative AI**.
- NPTEL Certification on **Cloud Computing**.
- NPTEL Certification in **Joy of Computing Python** with Elite Silver Grade, 2019.
- Smart Interviews Data Structures and Algorithms.
- Coursera Certification in **Python & Data Structures**.

Academic Projects:

- Built a Python-based **document parser** to process thousands of financial PDFs (earnings calls, reports,news) using NER tagging, chunking, and keyword indexing. Implemented **PageRank**-based ranking and intelligent keyword search to enable efficient information retrieval and document analysis.
- Developed an **AI-powered screenplay generation system** that creates structured scripts from user prompts and performs in-depth narrative analysis. Integrated scene-wise background music suggestions and dynamic character evolution analysis based on world-building and plot progression.
- **Semantic Entropy File System** - An intelligent file organization desktop application built with

Electron.js that uses NLP techniques (TF-IDF, stemming, K-means clustering) to automatically categorize documents by semantic similarity, featuring real-time visualization with D3.js and full-text search capabilities across multiple file formats including PDFs.

- Developed “Solar Vision,” a **satellite image analysis** system that processes **geospatial data** to detect and assess **solar energy potential** using image processing and heatmap visualization techniques. Implemented automated data preprocessing, feature extraction, and visual analytics to support location-based solar feasibility analysis and decision-making.

ACHIEVEMENTS:

Academic:

- Secured Rank of 36970 in JEE MAINS.
- Scored 96% in Intermediate and 92% in 10th CBSE

Co-Curricular:

- Won **1st Prize** in a coding event at BVRIT College.
- Secured 2nd Position in Synth Vision Challenge at VNR VJIET.
- Secured 2nd Position in GEN AI Hackathon at VNR VJIET.
- Qualified for 1st round of SMART INDIA HACKATHON.
- Participated in a workshop on **AI** by IIITH

Extra-Curricular:

- Represented school at a State-Level Chess Tournament, demonstrating strategic thinking and competitive excellence.
- Participated in multiple **Hackathons**, building innovative AI and full-stack solutions under time constraints.
- Won many **Essay writing** and **Elocution** competitions at school level.
- Active member of NSS and **organized** – literacy camps, medical camps etc.

STRENGTHS	Focussed	Quick Learning	Problem-Solving skills	Communication Skills	Creative Skills	Leadership skills
HOBBIES	Singing	Playing chess, badminton	Crafts from waste	Practicing Yoga	Drawing	Event Management

DECLARATION:

I hereby declare that the above mentioned information is true to the best of my knowledge and that I will be responsible for any deviation from the truth of these facts.
